WORK EXPERIENCE

Software Developer

Lynnat Pets & More

08/2020 - 06/2021

Accra, Ghana

Lynnat Pets is Pet Supply Shop with three Branches in Accra, supplying Pet supplies to retail shops across Ghana

Achievements/Tasks

- Developed and built an e-commerce platform for their pet supply stores, so that clients could quickly place orders without having to visit them in person.
- Tools: Wordpress, Git, PHP, Rest, API

Software Engineer

iSpace Foundation

06/2017 - 08/2018

Accra, Ghana

iSpace creates startup communities to help spur entrepreneurs to build new businesses and provide them with educational resources, working space, and access to a community of like-minded entrepreneurs.

Achievements/Tasks

- At first, my position at the iSpace Foundation was more of a frontend, but as my duties grew, I was elevated to lead full-stack developer, managing entire projects and teams from beginning to end. - Creating and administering the company's websites as well as other external projects in PHP and ReactJS, including five internal web applications. - Oversaw and interviewed potential new developers to determine whether they were a suitable match for the position
- Tools: React js, NodeJs, Git, PHP, Rest, API, Wordpress, AWS

Co-founder / Software Engineer

FarmCap

11/2017 - 10/2020

Tamale, Ghana

FarmCap is an Agritech platform that connect smallholder farmers to capital, data, input and market in Africa. We identify and assess farmers with great potential for growth and through our platform enable them to access more land, inputs, markets and other services they need to scale up their operations and increase productivity.

Achievements/Tasks

- Tools: React js, NodeJs, Git, PHP, Rest, API, AWS

PERSONAL PROJECTS

Solemo Church management system (ChMS) (04/2017 - 06/2017)

- Developed a Church management app for segmentation, Member profiling on their family, education and skills, roles played in church and report generation which helped the church get to know their actual membership base and also know their service turnout and also differentiate between members and visitors.

ACHIEVEMENTS

Speaker at Facebook Developer Circle: Accra

I lead a session on computer vision where I exposed participants on concepts, tools, and its benefits at an AI MasterClass Event Series, A one-day event that provided a hands-on tutorial on the Basic concept in AI.
